Riff Willer is the moniker of Amedeo Quagliarella, a songwriter who doesn’t just play music—he lives it. From his early start at 14 in the local bands of Vasto, on the Adriatic coast of Abruzzo, to a defining chapter spent absorbing the sounds and culture of the British music scene, Riff has spent years distilling the essence of his heroes into a signature sound. Deeply influenced by the giants—The Beatles, Bowie, Noel Gallagher, and Queen—his debut album is a seamless blend of timeless melody and raw attitude. Riff Willer isn’t here to reinvent the wheel, but to remind us why we fell in love with rock 'n' roll in the first place.
